ABOUT ME:

Diploma graduate in Computer Engineering (CGPA: 7.90) with strong knowledge of Java, Spring Boot, and Hibernate. Experienced in developing backend applications through internship projects. Passionate about coding and eager to build scalable software solutions.

EXPERIENCE:

AS A JAVA DEVELOPER

2025- PRESENT

- Developed and maintained web applications using Java and Spring Boot.
- Built a complete project "Online Advertisement System" with backend integration.
- Implemented database operations and ensured efficient data handling.
- Gained practical experience in real-world software development.

PROJECTS:

ONLINE ADVERTISEMENT

- Built a web-based advertisement management platform using Java and Spring Boot that allows users to post, view, and manage ads. Implemented CRUD operations and integrated database using Hibernate following MVC architecture.

BLOOD LINK

- Nowadays working on a java and spring boot based project Blood Link
- A platform that connects blood donors with recipients for fast and reliable blood support.
